# The Year We Measured What Truly Matters

Not in numbers, but in lives touched,  
dignity upheld, and trust earned.

Dear Well-wisher,

Some years are remembered for milestones. Others, for quiet persistence.

For Jivraj Mehta Hospital, 2025 was not a year of expansion or grandeur — it was a year of measurable impact. Not measured in profits or scale, but in how deeply we served, how mindfully we acted, and how sincerely we upheld our mission.

- A woman walked in for a preventive check-up — not out of urgency, but because a message reassured her to take charge of her health.
- A dialysis session was offered — not as charity, but as a continuation of care.
- A research paper was published — not for acclaim, but for someone's better tomorrow.
- Solar panels were installed — because the future deserves the same care we offer today.
- A bed was given to a family in distress — because health must never depend on wealth.

Behind every statistic in this report is a story of service.

**A moment of care.**

**A decision made with compassion.**

**A trust that was honored.**

We didn't chase headlines.

We focused on what truly matters — the patient's experience, the precision of our care, the strength of our systems, and the depth of our compassion.

Yes, recognition came. Accreditations were renewed. Awards were received.

But these were not goals. They were quiet affirmations that we are on the right path — the path of responsibility, humility, and relentless care.

This report is a reflection of that journey.  
Of your faith in us.  
Of our team's unyielding commitment.  
And of the thousands of lives we were privileged to touch.

As you turn these pages, we invite you to see beyond the metrics.  
To see the humanity. The hope. The healing.

Because at Jivraj Mehta Hospital, we don't just count progress —  
We honour it. One life at a time.

Thank you for walking this journey with us.

Warm regards,

# Dr. Jivraj Mehta Smarak Health Foundation & Bakeri Medical Research Centre

## Carrying Forward a Legacy of Care, Discovery & Impact

At Dr. Jivraj Mehta Smarak Health Foundation, every life we touch is a continuation of a promise made decades ago — a promise to make healthcare accessible, affordable, and deeply human.

Established to honour Dr. Jivraj Mehta's unparalleled contributions to medical education, healthcare services, administration, and research, the Foundation stands as a living tribute to his vision. His belief was simple yet profound: healthcare is not just a profession, but a responsibility towards society.

Today, under this guiding philosophy, we provide comprehensive multi-disciplinary medical and surgical care under one roof, combining clinical excellence with compassionate service. For us, quality healthcare is not only defined by luxury, but by the dignity, empathy, and trust we extend to every patient.

## Research with Purpose, Care with Compassion

At the heart of our Foundation lies a deep-seated commitment to research that matters. Through the Bakeri Medical Research Centre, we

continue to explore pressing health challenges with the singular aim of improving lives. With state-of-the-art infrastructure and a dedicated team, the Centre drives innovation that is patient-centric, evidence-based, and socially impactful.

Our focus is not on accolades, but on advancing treatments, refining therapies, and addressing real-world healthcare needs — always with the patient's well-being at the core.

## The Human Touch in Every Innovation

In an era of rapid technological evolution, we remain steadfast in our belief that technology should enhance empathy, not replace it. Every digital upgrade, every clinical protocol, and every infrastructure investment is evaluated through a simple lens:

"Will this make a patient's journey smoother, safer, and more dignified?"

This year, as we reflect on 'The Year of Measurable Impact', we celebrate not just the numbers, but the meaningful difference made in countless lives — through free services, life-saving interventions, research breakthroughs, and a culture of continuous improvement.

## Building the Future, Guided by Values

As we continue to build on Dr. Jivraj Mehta's legacy, our mission remains clear:

- To deliver healthcare that is trustworthy, empathetic, and accessible.
- To pursue research that serves real human needs.
- To be a place where care and innovation walk hand in hand.

With every patient we heal and every challenge we take on, we reaffirm our commitment to a future where healthcare is not a privilege, but a shared human right — delivered with excellence, compassion, and integrity.

# Honouring Our Founder

## Shri Ratubhai Adani

### A Legacy of Vision, Service, and Humanity

Some lives do not fade with time — they continue to inspire, guide, and uplift generations.

Shri Ratubhai Adani's life is one such beacon.

From his early years, Ratubhai carried the rare courage to dream boldly and the relentless will to turn those dreams into tangible change. His heart beat with the aspirations of the common people, and his patriotic spirit found its calling in India's freedom struggle. Actively participating in landmark movements like the Dandi Satyagraha, he became a tireless organiser, a fearless worker, and a visionary leader.

Beyond the battlefield of independence, his true mission unfolded — building institutions that could serve humanity long after the freedom struggle was won. Ratubhai's leadership was not just about vision; it was about meticulous execution. He had an innate ability to rally resources, attract talent, and inspire selfless service. His causes were noble, his methods pragmatic, and his intent always rooted in human dignity.

Whether it was relieving suffering, empowering livelihoods, combating poverty, or fostering self-reliance, every initiative reflected his deep empathy for those in need. He believed that true freedom was not just political — it was economic, social, and personal.

Today, his legacy is not confined to history books.

It lives on in the smiles of patients who receive dignified care, in the empowerment of those who find support in times of need, and in the unwavering commitment of every individual who serves under the banner of Jivraj Mehta Smarak Health Foundation.

Shri Ratubhai Adani's ideals are not mere memories — they are living values that continue to shape every action, every decision, and every life touched by our institution. His life's work remains a symbol of timeless human service, carried forward with the same passion and humility.

# ONE MISSION

# JIVRAJ

DR. JIVRAJ MEHTA SMARAK HEALTH FOUNDATION  
BAKERI MEDICAL RESEARCH CENTRE

24 x 7 EMERGENCY DEPARTMENT  
તાત્કાલીક સારવાર વિભાગ

## Our Mission

To provide the finest quality of healthcare to all in need, affordable to everyone, with a human touch, in a healing environment.

## Shri Anil Bakeri

President

As we continue to strive for excellence in healthcare, I am proud to lead an organization that is dedicated to providing compassionate, high-quality care to our patients and their families. Our hospital is committed to innovation, safety, and patient satisfaction.

I would like to express my deepest gratitude to our talented and caring staff, who work tirelessly to make a difference in the lives of those we serve. Their dedication and expertise are the foundation of our success.

As we look to the future, we will continue to invest in new technologies, services, and programs that meet the evolving needs of our community. Our goal is to be a trusted partner in health and wellness, and to make a positive impact on the lives of those we touch.

Thank you for choosing our hospital, and for being part of our journey towards excellence in healthcare."

Different people from all walks of life have contributed financially in handsome measures in making the Institution one of the finest multidisciplinary multispecialty hospitals, in this part of the country.

I hope people will continue to support this Institution to go further onwards and avail of the expanded medical facilities in a large measure.

In the 35th year since the Dr. Jivraj Mehta Smarak Health Foundation was formed, we rededicate the all-new Dr. Jivraj Mehta Hospital and Bakeri Medical Research Centre to the people of Gujarat.

At JIVRAJ, our mission is to provide compassionate, high-quality, and accessible healthcare services to all. As advocates for health equity, we aim to address healthcare disparities and reduce barriers to care, ensuring that everyone receives the medical attention they need, regardless of their ability to pay.

Our dedication to serving society with integrity and transparency guides every decision we make. As a non-profit institution, it is only with the support of generous donors that we can continuously improve our facilities and expand our services, with the aspiration to make JIVRAJ one of the finest trust-run healthcare institutions in India.

**Shri Achal Bakeri**

**Vice President**

## Shri Devan Parikh

Managing Trustee

It is truly believed that when intentions are pure & hard work is touched with earnestness, the winds will always blow your sails. The hundreds of our donors, the guidance of our trustees, and the unending sincerity of our doctors, nurses & staff to their duty has enabled Jivraj to achieve the milestones that are apparent from our Balance Sheet. Our true satisfaction of course lies in the fact that we are able to make excellent medical care available to the un-affording. At Jivraj, the availability & quality of medical services are not limited to the ability of the patient, but to his medical needs. At Jivraj our motto is in that sense "less must mean more".

We are forever conscious of the fact that the true spirit of Jivraj is of service to the needy, and we look at our Annual reports, only as an indicator of Jivraj having served its purpose better for the current year with the average occupancy having risen to 22.30 % for the present year & revenues having increased by 25.19 % there is an encouraging endorsement for the path that Jivraj has explored lately.

Our effort to further professionalize and upgrade our services for the betterment of needy patients in all respects is an ongoing process. This cannot be achieved without the kind souls of our donors, the unflagging support of our trustees, and the dedication of team Jivraj. We look forward to your invaluable support in our future endeavors.

I am yet reminded of the famous lines from Robert Frost's poem Stopping by woods on a snowy Evening.... "And miles to go before we sleep"!

# A Journey of Healing

## The Story of Dr. Jivraj Mehta Smarak Health Foundation

In the early 1980s, a vision was conceived. In 1981, Dr. Jivraj Mehta Smarak Health Foundation was established to honor the remarkable contributions of Dr. Jivraj Mehta, a pioneer in the field of medical education, administration, and research. This foundation laid its first stone, setting the stage for a journey of compassion, innovation, and excellence in healthcare.

### 1989-1990

#### The Early Years: Laying the Foundation

The foundation's journey began with the establishment of its Medical Research Centre in 1989. This marked the beginning of a relentless pursuit to provide top-notch healthcare services. By 1990, the foundation expanded and renovated its Intensive Critical Care Unit (ICCU) and Intensive Care Unit (ICU), reflecting its commitment to saving lives.

### 1991-2000

#### Building a Comprehensive Healthcare System

In 1991, the launch of the I.C.C.U. and Ambulance Service showcased the foundation's dedication to rapid and effective emergency care. The early 1990s also saw the inauguration of the Diabetic Clinic in 1993 and the renaming of the facility to Bakeri Medical Research Centre in 1994, enhancing its identity and services. The mid-1990s brought further expansion with the introduction of Eye, Dental, Casualty, and Physiotherapy Services in 1996.

### 2001-2010

#### Entering a New Millennium

As the new millennium dawned, the foundation continued its journey of innovation and expansion. The year 2000 saw the introduction of Laparoscopic surgery and the expansion of Gastro-intestinal endoscopic facilities. By 2001, the foundation had introduced a joint replacement surgery package and initiated a Nursing Training program, further cementing its reputation as a leader in healthcare education and services.

In 2002, the foundation took a significant leap by commissioning open heart surgery, followed by the inauguration of renovated C.H.C. Department and Pediatric Floor in 2003. The mid-2000s were marked by infrastructure upgradation, the addition of an Ophthalmic Operation Theatre, and the launch of a Tele-Medicine Center in 2007.

## 2011-2020

### Strengthening the Foundation

The 2010s were a period of consolidation and growth. In 2013, the foundation inaugurated its Cathlab & Cardiac Surgery Department, enhancing its cardiac care capabilities. By 2014, it had gained recognition from the ISCCM and initiated diploma and certificate courses to foster medical education.

The years 2016-17 were transformative, with the inclusion of a Component Blood Bank, implementation of ERP software, and the development of a comprehensive fire safety system and hospital website. The foundation continued to grow, with significant developments in the CSSD and Operation Theaters in 2018-19.

## 2021-2023

### Adapting to New Challenges

The onset of the COVID-19 pandemic in 2020 presented unprecedented challenges. The foundation rose to the occasion, adding high-end ventilators and successfully treating over 1000 COVID patients. The implementation of a sprinkler system for enhanced safety highlighted its commitment to patient care.

In 2021-22, the foundation introduced a liquid Oxygen tank and upgraded the Central Medical Gas line, ensuring the availability of critical resources. The years 2022-23 witnessed comprehensive upgrades to hospital infrastructure and equipment, reflecting a relentless pursuit of excellence.

## 2024

### Continuing the Legacy

As we celebrate 35 years of healing lives in 2024, the journey of Dr. Jivraj Mehta Smarak Health Foundation continues. With each milestone, we honor our past, embrace the present, and

**2025**

look forward to a future where compassionate, high-quality healthcare is accessible to all. Our story is one of dedication, innovation, and unwavering commitment to the well-being of our community. Together, we will continue to write new chapters in this inspiring tale of healing and hope.

### **The Year of Measurable Impact**

This year, we chose to measure success not in scale, but in significance. Every initiative — from infection control and infrastructure upgrades to digital innovation and donor transparency — was evaluated through one lens: the lives it touched.

It was a year of thoughtful progress, where every effort was backed by intent, and every expenditure was made with care. From improving patient outcomes to deepening trust, 2024–25 reaffirmed that meaningful impact isn't just about numbers — it's about people.

And when measured that way, this year stands as one of our most fulfilling yet.

### **Looking Ahead: Continuing the Legacy**

As we reflect on 35+ years of healing lives, we know this journey is far from over.

Every milestone is a beginning. Every patient is a story. Every challenge is a chance to serve better.

With trust as our foundation, care as our language, and impact as our goal, we move forward — honouring the past, embracing the present, and shaping a healthier, more compassionate future.

# AWARDS RECEIVED

6

NABH  
Accreditations

1

NABL  
Accreditation

# Each Recognition, A Reminder of Responsibility

## Awards & Accreditations 2024-25

At Dr. Jivraj Mehta Hospital, we see every patient's trust as the highest form of recognition. Awards are never our goal. Yet, when esteemed institutions acknowledge our work, it gently reminds us of the responsibility we carry — to serve with greater care, deeper empathy, and unwavering commitment.

In the year 2024-25, a few recognitions came our way. They do not mark achievements but reflect the small, sincere steps we continue to take towards improving lives.

## NABH Digital Health Accreditation – Platinum Level

**Awarded by the National Accreditation Board for Hospitals & Healthcare Providers (Quality Council of India)**

This Platinum-level accreditation acknowledges our sincere efforts in aligning with Digital Health Standards. These efforts are not about adopting technology for the sake of advancement, but about quietly enhancing patient care, ensuring safety, and maintaining

transparency — so every patient's journey is smooth, secure, and dignified.

## HITCON Tech Savvy Hospital Award

**Awarded by HITCON 12.0**

This recognition appreciates our modest steps in embracing technology — thoughtfully applied to simplify processes for patients and caregivers. For us, being 'tech savvy' simply means being more accessible, more efficient, and more compassionate in every interaction.

## Champions of NABH Digital Health Standards

**Awarded by Quality Council of India**

This honour reflects our continued compliance with NABH's evolving digital health benchmarks. Each process improvement, however small, is designed with the patient's well-being at its core, ensuring safety, privacy, and ease at every touchpoint.

### **Outstanding Contribution Award – 'Med in India Initiative'**

**Presented at the Healthcare Owners'  
Conclave 2024**

This award recognises our consistent efforts to make quality healthcare accessible and affordable within India. Staying true to our non-profit mission, we strive to serve with integrity, offering care that is guided by purpose, not profit.

### **Our Heartfelt Gratitude**

These recognitions belong to every patient who walks in with hope.

To every hand that heals with care.

And to every supporter who believes that healthcare is a mission, not a business.

With humility, we accept these honours — as quiet reflections of lives touched and service rendered.

### **Accreditations: A Reflection of Our Promise**

At Dr. Jivraj Mehta Smarak Health Foundation, quality is not just a benchmark — it is a promise we renew with every patient we serve. Our accreditations are not mere certificates on the wall; they are a reflection of the systems, processes, and care standards we uphold every single day.

Each recognition validates our unwavering commitment to safety, transparency, and excellence in healthcare delivery.

**NABH**

- Platinum

## More Than a Badge — A Responsibility

Every accreditation is a quiet reassurance to our patients and their families — that when they place their trust in us, it is backed by the highest standards of quality and safety.

These recognitions are the result of the collective dedication of our doctors, nurses, paramedics, administrators, and every team member who upholds this culture of excellence — not for awards, but for the people we serve.

## Moving Forward with Purpose

As we look ahead, these accreditations inspire us to do more — to innovate, to improve, and to always keep the patient at the heart of every decision. The journey of excellence is never complete, but with each milestone, we reaffirm our commitment:

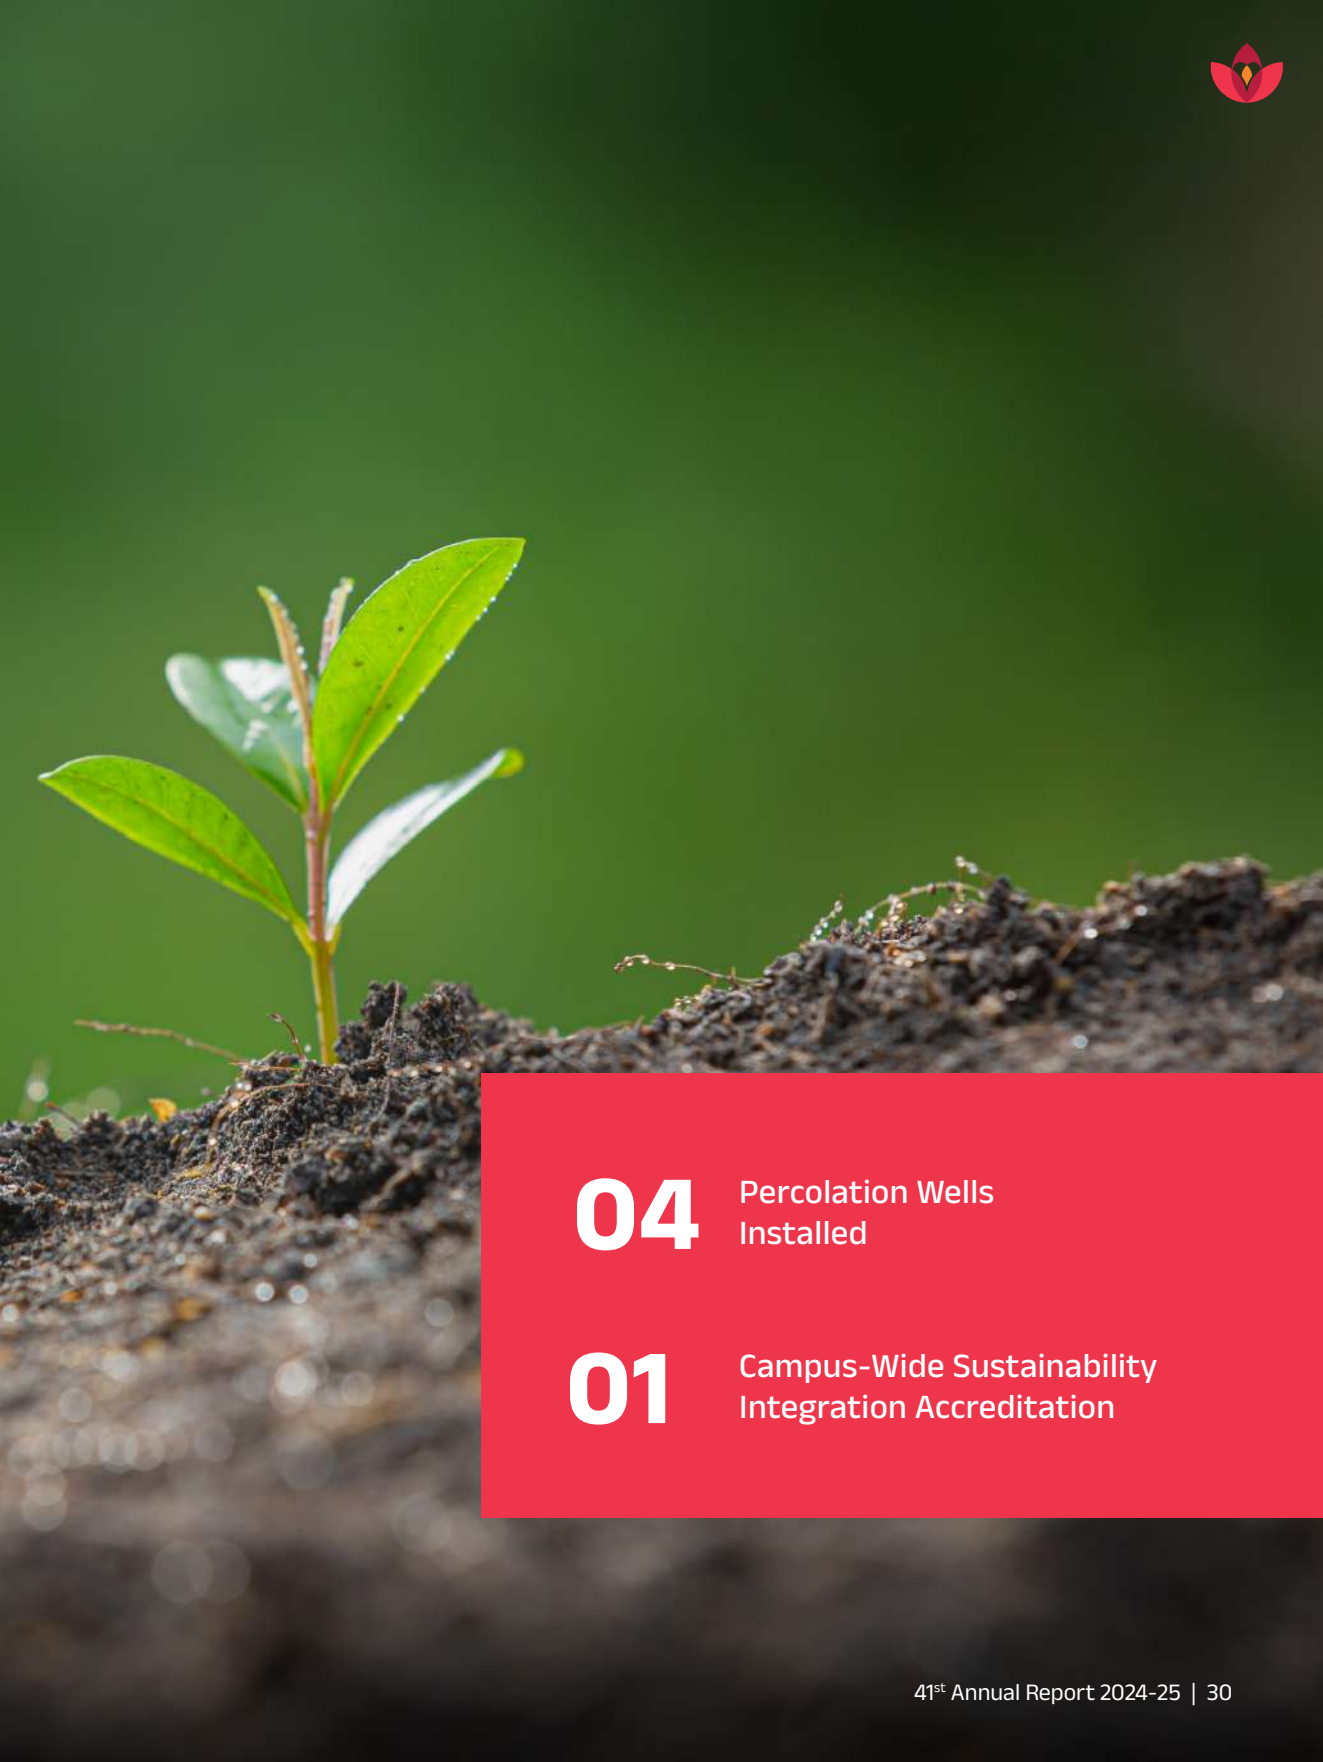

**To deliver care that is safe, empathetic,  
and of the highest quality — for every  
patient, every time.**

2

# KEY ENVIRONMENTAL GOALS ACHIEVED:

**04** Percolation Wells  
Installed

**01** Campus-Wide Sustainability  
Integration Accreditation

# Every Small Step Towards a Healthier Planet

## Green Building Initiatives 2024-25

At Dr. Jivraj Mehta Hospital, we believe that caring for people also means caring for the environment they live in. Our commitment to health goes hand-in-hand with our responsibility towards nature. Every small, mindful action we take today is a step towards safeguarding the well-being of future generations.

In 2024-25, we continued to adopt sustainable practices that quietly reduce our environmental footprint while ensuring uninterrupted, quality care for our patients.

## Harnessing Solar Energy for Sustainable Healthcare

To reduce our dependence on traditional power sources, we have initiated the installation of solar power systems. This project, set to be completed by the end of next year, aims to bring long-term benefits:

- **Lower Energy Costs:** Reduced electricity expenses, allowing us to redirect resources towards patient care and facility improvements.
- **Reliable Power Supply:** Supporting critical medical equipment and essential services, even during outages.
- **Minimal Maintenance, Long-Term Savings:** A cost-effective and environmentally responsible solution with minimal upkeep.
- **Environmental Responsibility:** A significant reduction in carbon footprint, aligning with our commitment to sustainable healthcare.

## Percolation Wells: Conserving Every Drop of Water

In response to growing concerns over water scarcity, we have installed 4 percolation wells within our hospital campus. These wells allow rainwater to percolate back into the ground, helping replenish groundwater levels and reduce our reliance on municipal water supplies.

The benefits extend beyond our hospital walls:

- **Recharging Groundwater Aquifers:** Contributing to the long-term water security of the surrounding community.
- **Reducing Water Costs:** By maximizing rainwater usage, we aim to minimize wastage and dependence on external sources.
- **Sustainable Water Management:** A small but vital step towards preserving water for future generations.

## A Quiet Contribution with Lasting Impact

These initiatives may not be visible in daily hospital operations, but their impact resonates far and wide. For us, every unit of energy saved, and every drop of water conserved, is another way to uphold our mission of care — for people, and for the planet.

**REDUCE · REUSE · RECYCLE**

# PAPERLESS TRANSITION

## 100%

Nursing and Admin Trainings  
Shifted to Online via Medlern

## 30+

Clinical & Operational  
Forms Digitized

## 06

Major Digital Initiatives  
Implemented

# Technology with a Human Touch

## Digital Innovations 2024-25

At Dr. Jivraj Mehta Hospital, digital transformation is not about adopting the latest trends — it's about serving patients better, simplifying processes, and supporting our staff with tools that allow them to focus more on care and less on paperwork.

This year, we continued our journey of quiet, meaningful digital innovations that enhance healthcare delivery, improve internal efficiency, and support environmental responsibility.

## Key Initiatives in 2024-25

- **Medical MIS - Monthly**

Implemented a monthly Medical Management Information System to streamline data collection, ensure accurate reporting, and support informed decision-making.

- **Digital Patient Feedback System**

Introduced real-time digital feedback to quickly address patient concerns and continuously improve service quality.

- **ABDM Portal Registration**

Facilitated secure digital health record management through the ABDM portal, ensuring safe and efficient access to patient information.

- **HR Digitization via Adrenaline App**

Digitized the complete employee lifecycle, covering manpower requisition to relieving, enhancing operational efficiency and reducing paperwork.

- **Med-learn App**

Launched for continuous digital training of hospital staff, ensuring easy access to learning and professional development.

- **Internal Complaints & Incident Reporting Digitalisation**

Streamlined complaint management for IT, Facility, BME, Maintenance, and clinical incidents through HMIS-based digital reporting systems.

## Comprehensive Digital Documentation for Patient Care

A major step this year has been the digitization of an extensive range of clinical forms, ensuring better accuracy, faster accessibility, and reduced manual errors in daily operations. These include:

- **Clinical Assessments & Monitoring:**

Emergency Initial Assessment, Inpatient Initial Assessment, MO Reassessment, MO Hand Over, ICU Admission & Discharge Criteria, AMSP, Glasgow Coma Scale, MEWS/NEWS/PEWS, Mortality Probability Model, Pain Scale, DVT Risk Assessment, Patient Counselling, Physiotherapy & Nutritional Assessments, Discharge Summary.

- **Nursing Documentation & Risk Assessments:**

Nursing Initial Assessment, Nursing Hand Over & Reassessment, Braden Scale, Pain Assessment Tools, CPOT, NIPS, FLACC, Morse Fall Risk, Vulnerable Assessment, VIP (Phlebitis Monitoring), Pressure Ulcer Monitoring, Restraint Monitoring, Pre-op

Nursing Checklist, Activity of Daily Living, Vital's Chart, Bundle Care Forms (CAUTI, CLABSI, VAP, SSI), Blood Transfusion Monitoring, Patient & Family Education.

- **Operational Support Forms:**

Billing Automation, Internal Complaints (IT, Facility, BME, Maintenance), and Incident Reporting through HMIS.

### Future Plans for Digital Upgradation

Looking ahead, we are committed to further advancing digital practices to enhance efficiency, reduce environmental impact, and improve patient care through:

- **Paperless Hospital Transition:**

Gradual elimination of physical documents to significantly reduce paper waste and streamline workflows.

- **Enhanced Digital Patient Interaction:**

Simplifying how patients access information, communicate with healthcare providers, and manage their care through user-friendly digital platforms.

- **Strengthening NABH Digital Initiatives:**

Continuing to uphold the highest standards of digital health compliance, ensuring safer, more efficient care delivery.

For us, every digital innovation is a tool to serve with more empathy, more care, and more mindfulness — never just technology for the sake of it.

# Research Rooted in Service

## Advancements at Bakeri Medical Research Centre 2024-25

At the Bakeri Medical Research Centre, research is not a pursuit of accolades. It is an extension of care. Every study, every trial, and every protocol is driven by a simple, singular aim — to improve the lives of patients, and to support better treatment outcomes through knowledge and evidence.

Since its inception in 1992, the Research Department at Dr. Jivraj Mehta Smarak Health Foundation has been dedicated to meaningful, patient-focused research. This year, we continued that journey with quiet consistency and measurable impact.

## Research Activities Snapshot (2016-25)

The past year marked a significant phase of activity across clinical research, academic projects, and skill development:

### Sponsored Clinical Trials (Past 10 Years)

**8 trials conducted in 2024-25**, reflecting active collaborations with leading healthcare research organizations.

### In-house Projects (Past 10 Years)

A remarkable **27 in-house research projects** were undertaken in 2024-25, the highest in five years — showcasing the dedication of our team to explore new insights in patient care.

### Publications (Past 10 Years)

**14 research publications** in peer-reviewed journals this year, ensuring that the knowledge gained reaches a wider healthcare community for shared learning and improvement.

### Students Trained (Past 10 Years)

**3 students trained** in research methodologies and clinical studies in 2024-25, nurturing the next generation of researchers focused on patient-centric outcomes.

In the search for health and healing, every discovery brings us closer to a brighter, healthier future.

At Dr. Jivraj Mehta Hospital, we believe that the journey of care is one of constant learning, innovation, and compassion.

# Clinical Trials: Supporting Better Care through Evidence

At Bakeri Medical Research Centre, clinical trials are undertaken not just to explore new treatments, but to ensure every advancement

is backed by rigorous evidence, benefitting the patients who trust us with their care.

## Closed Clinical Trials (2024-25)

Indication	Principal Investigator (PI)	Sponsor
Atopic Dermatitis	Dr. Panna Shah	Veeda Lifesciences
Acne Vulgaris	Dr. Stuti Vyas	Cliantha Research
Diabetes Mellitus	Dr. Banshi Saboo	Novo Nordisk Pvt Ltd
Obesity	Dr. Banshi Saboo	Dr. Reddy's Laboratories Ltd

## Ongoing Clinical Trials (2024-25)

Indication	Principal Investigator (PI)	Sponsor
Acne Vulgaris	Dr. Panna Shah	Catawba Pvt Ltd
Diabetes Mellitus	Dr. Banshi Saboo	Biogenomics Ltd.
Mild Asthma	Dr. Vaishal Sheth	Novotech CRO
Mild Asthma	Dr. Vaishal Sheth	Macleods Pharmaceuticals

## Upcoming Clinical Trials (2025-26)

Indication	Principal Investigator (PI)	Sponsor
Heart Failure	Dr. Sandarbh Patel	Novo Nordisk Pvt Ltd
Diabetes Mellitus	Dr. Banshi Saboo	Dr. Reddy's Laboratories Ltd

“Every trial we participate in is a step towards ensuring safer, more effective treatments for the patients we serve — grounded in science, guided by care.”

### Quiet Milestones of 2024-25

While awards and numbers are not our aim, they often reflect the quiet, consistent work happening behind the scenes. This year, a few such milestones reaffirmed our commitment to responsible research and patient-centric progress:

- **NABH Re-assessment successfully conducted on 22nd March, 2025**

A reaffirmation of our adherence to ethical research practices and patient safety protocols.

- **Research Income for 2024-25: ₹57,45,294**

This income has been meaningfully channeled into strengthening our research foundation — expanding infrastructure, supporting impactful clinical studies, and deepening our commitment to knowledge that heals, serves, and uplifts patient care.

These achievements are not goals in themselves but gentle validations of our ongoing mission — to serve with evidence, empathy, and ethical responsibility.

“

Each milestone we achieve is a step closer to our vision of providing exceptional healthcare to all.

At Dr. Jivraj Mehta Hospital, every accomplishment is a testament to our unwavering commitment to excellence, compassion, and continuous innovation.

”

# Academic Research: Focused on Real-World Patient Care

## Academic Research Projects

### Completed Projects (2024-25)

S.No.	Title	Principal Investigator (PI)
1	Radiographic differentiation of congenital vertical talus from congenital oblique talus using the foot-CORA method	Dr. Dhiren Ganjwala
2	Adverse childhood Experiences, Anxiety, Depression and Subjective Well-being of Adult Indians	Dr. Riri G. Trivedi
3	A retrospective study of results of closed wedge proximal tibial osteotomy in patients of osteoarthritis knee	Dr. Dinesh Thakkar
4	Bronchodilator Effect of AyuBreth in Respiratory Tract Disorders	Dr. Prerak Shah

### Ongoing Projects (2024-25)

S.No.	Title	Principal Investigator (PI)
1	Conservative management in-patient with grade 1 & 2 spondylolisthesis	Dr. Hriday Acharya
2	Analysis of conservative management of osteoporotic vertebral fracture	Dr. Hriday Acharya
3	Efficacy of homeopathy medicine in Urticaria	Dr. Krupali Satyavadi

S.No.	Title	Principal Investigator (PI)
4	Correlation between serum TSH receptor antibody with peak systolic velocity of superior and inferior thyroid artery in patients with naïve Grave's disease	Dr. Shalin Shah
5	Effect of SGLT2 inhibitors on body composition in patients with type 2 diabetes mellitus	Dr. Shalin Shah
6	Socio-demographic correlates of Hypertension	Dr. Mrugdha Patel
7	Socio-demographic correlates of Diabetes mellitus	Dr. Chirag Vaghela
8	Comparative study of emotional intelligence (EQ) between paramedical staff and non-medical staff	Dr. Pallavi Kapadia
9	Pan Indian registry for progressive supranuclear palsy (PAIR-PSP)	Dr. Heli Shah
10	Genetics of Pan Indian young onset Parkinson's disease (GOPI-YOPD)	Dr. Heli Shah
11	Prevalence of microsatellite instability pan-cancer in India	Dr. Harsh Sheth
12	Biochemical studies and molecular testing using sm-MIP based NGS technology in children suspected with lysosomal storage disorders	Dr. Jayesh Sheth
13	To compare outcomes for primary VATS decortication in patients with Empyema	Dr. Taha Daginawala
14	Effect of various aligner materials on HGF and Hela cell line using MTT test – An in vitro study	Dr. Purnima Bhawe
15	Role of periodontal therapy in reduction of HbA1C in type-2 diabetic patients with chronic generalized periodontitis	Dr. Shaurya Gandhi
16	Surveillance of anaemia, hypothyroid and cardiac disease in women of varied age group	Dr. Harsh Desai

S.No.	Title	Principal Investigator (PI)
17	Development of antibiogram for a period of 1 year and its analysis in tertiary care hospital	Dr. Vibhuti Patel
18	Cross-sectional study of cardiovascular manifestation in newly diagnosed hypertension patients	Dr. Ajay Parmar
19	Serial MRI evaluation during non-operative treatment of CVT	Dr. Dhiraj Ganjwala
20	Hip Fracture Database: Research Proposal	Dr. Padmanabh Vora
21	Protocol-based extubation strategy and its outcome	Dr. Parth Shah
22	Effect of ayurvedic formulation (Tablet Trimigo) in headache	Dr. Prerak Shah
23	Prevalence of carbapenem-resistant enterobacteria in symptomatic vs asymptomatic bacteriuria (catheterized and non-catheterized patients)	Dr. Vibhuti Patel
24	Clinico-epidemiological profiling of cardiomyopathy cases registered at JMSHF	Dr. Ashi Thobias

#### Newly Approved Research Project

Title	Principal Investigator (PI)	Co-PI
Extracellular Vesicle-Encapsulated miRNA and mRNA as Novel Biomarkers for Myocardial Infarction Risk Stratification	Dr. Vivek Tanavde	Dr. Ashi Thobias

THE MICHAEL J. FOX FOUNDATION  
FOR PARKINSON'S RESEARCH

SPONSORED BY

Parkinson's Research Alliance  
of India (PRAI) Consortium

## A Global Research Milestone

This year, we were privileged to contribute to the **Pan India Registry for Progressive Supranuclear Palsy (PAIR-PSP)**, a project supported by The Michael J. Fox Foundation for Parkinson's Research, MedGenome, and PRAI Consortium. This marked our first international academic research funding, positioning

Dr. Jivraj Mehta Hospital as a significant contributor to Indian genomic data initiatives.

# Remarkable Achievements in 2024-25 for Bakeri Medical Research Centre

This year marked significant milestones for the Research Department at Bakeri Medical Research Centre, reflecting our growing engagement with the wider scientific community.

- **International Speaking Invitation for Dr. Prabhudas Patel**

Dr. Prabhudas Patel was invited to speak at the prestigious **International Conference on Integrative Oncology and Systems Medicine: Emerging Trends and Therapeutic Potential**, held at Sridev Suman Uttarakhand University & AIIMS Rishikesh, on 20-21 February, 2025.

His session on “Genetic Landscape of Oral Cancer: Employing Computational and Biomolecular Approaches” highlighted our contributions to advancing research in cancer genomics.

- **Poster Presentations Selected for International Conference**

Additionally, **two abstracts submitted by our team were selected for poster presentations** at the same conference, underscoring the relevance and quality of our ongoing research work.

These achievements reaffirm our commitment to advancing knowledge, fostering collaborations, and contributing meaningfully to the global healthcare research ecosystem.

Dr. Prabhudas Patel presenting at the conference, the conference invitees from across the globe and the abstracts accepted in

the conference submitted by Dr. Ashi Thobias (CRC) and Dr. Vaidehi Thakore (CRC intern)

## Committee Meetings held at JMSHF:

1. **IEC-BHR: 3 meetings**

May 23, 2024, November 8, 2024, March 4, 2025.

2. **IEC (CDSCO): 5 meetings**

January 18, 2024, April 9, 2024, May 23, 2024, November 8, 2024, March 4, 2025, April 23, 2025,

3. **Scientific Advisory Committee (SAC)**

April 18, 2024

4. **NABH Ethics Committee Renewal**

# The Communication Journey 2024-25

## Every Message Matters When It Comes from Care

At Dr. Jivraj Mehta Hospital, we've never seen communication as mere promotion. We see it as a presence. When someone is in pain, unsure, or afraid — words matter. Tone matters. Trust matters.

In 2024–25, we continued to embody this belief across every medium and every touchpoint. From hospital corridors to city crossings, from social media feeds to bedside files — our focus was singular: **to guide, to reassure, to care.**

## Speaking to the Community: Not to Advertise, But to Serve

One of the year's most impactful campaigns was "Jivraj no Saath to Cancer ne Maat." It wasn't just a slogan; it was a promise — that early screening, timely intervention, and compassionate care could make a life-changing difference. When patients arrived saying, "We came after seeing your ad," we knew we weren't just heard — we were trusted.

We also focused on critical care awareness. In emergencies, information saves lives. That's why our campaigns across buses, newspapers, radio and hoardings emphasized swift access, not just our name.

The "Chinta Na Karta" initiative became a comforting voice in patients' lives. With the support of Chinta Na Karta Officers (CNKOs), ambulance wraps, patient files, and even OPD displays, we ensured that no patient ever felt alone in their healing journey.

From thoughtful Total Knee Replacement awareness campaigns to creative reminders for regular health check-ups, and from simple acts like posters for women's health to powerful World Heart Day outreach - **our communication became care.** It reached homes, answered fears, and encouraged people to take their well-being into their own hands.

## Consistency That Builds Confidence

In the world of healthcare, consistency isn't cosmetic — it's critical. That's why every piece of communication this year, whether it was a hoarding, a report envelope, a radio ad, or even a birthday greeting for staff, echoed the same heartbeat:

### **We are here for you. Chinta Na Karta.**

This consistency extended across patient-facing materials and internal messaging — ensuring that from the first enquiry to the final report, the care felt seamless, intentional, and human.

## Creating an Environment of Reassurance

Without overwhelming the patient, we quietly redesigned spaces across the hospital to become more intuitive and informative. From guiding visitors through lifts and waiting areas, to sharing vital protocols, to rethinking signage and cafeteria information — every detail was revisited with one question in mind:

### Can this make someone feel less anxious?

Internally too, operational branding and HR communication saw a thoughtful makeover — helping every staff member feel just as supported as the patients they serve.

### The Real Impact: When Communication Becomes Comfort

Our success this year wasn't in ad impressions or click-through rates. It was in the woman who paused at a poster and booked a screening. In the family that found the right room in an emergency without asking twice. In the small moments where a patient, holding a file, felt seen.

Because when you communicate with care -

**Care communicates back.**

True healthcare is not just about treatments; it's about building trust through clear, compassionate communication.

At Dr. Jivraj Mehta Hospital, we understand that when communication becomes comfort, healing begins beyond the physical.

# The Digital Pulse of Progress

## Growing Visibility, Growing Trust

In today's connected world, the first step in a patient's journey often begins online. At Dr. Jivraj Mehta Hospital, our digital presence isn't just about being found — it's about being trusted, accessible, and informative from the very first click.

The past year has marked a significant leap forward in our organic digital performance, reinforcing the strength of our content strategy, technical SEO improvements, and patient-centric online presence.

## Organic Traffic Performance (April 01, 2024 – March 31, 2025)

- **Organic Sessions:** 48,811
- **Organic Users:** 33,868
- **New Organic Users:** 31,366

This growth reflects a marked increase in search engine visibility and audience engagement. Over the last six months alone:

- **Sessions** rose by **21.72%**
- **Total Users** increased by **24%**
- **New Users** grew by **25.25%**

## Search Console Highlights (6-Month Progress)

- **Clicks:** Up from 22,400 to 27,400 (**22.32% growth**)
- **Impressions:** Increased from 752,000 to 1,070,000 (**42.29% growth**)
- **Average Position:** Improved from 26.3 to 18.4 (**30.04% improvement**)

This directly translates to better search discoverability, higher user interest, and stronger trust in our website content.

## Keyword Ranking Achievements

Our SEO strategy has strengthened our rankings across critical patient-centric search terms:

- Keywords ranking in **positions 1–10** grew by **567.74%**, now at **331 keywords**.
- Keywords in **positions 11–20** increased from **43 to 138**.
- Keywords in **positions 21–30** improved by **169.70%**.
- Low-performing rankings (positions 31–100) dropped by **54.26%**, showing our upward momentum.

## Search Query Visits

- Year-over-year **search query traffic** rose by **129.53%**, demonstrating higher intent-based discovery.

## Organic Goal Conversions

Meaningful engagement is the truest metric of success. In 2024–25, our website not only attracted more visitors but prompted more action:

- **WhatsApp Clicks:** +5.41%
- **Email Clicks:** +6.21%
- **Call Clicks:** +76.29%
- **Form Submissions:** +369.77%

## A Digital Strategy That Mirrors Our Values

This consistent growth was not just technical — it was intentional. Every page, keyword, and interaction was designed to build confidence, provide clarity, and support those seeking care. From accurate service information to simplified

contact pathways, our digital ecosystem has quietly become an extension of our patient-first philosophy.

The numbers reflect more than visibility — they reflect lives informed, families reassured, and care made more accessible.

Digital growth is not just about numbers;  
it's about creating a lasting connection with  
those who trust us for their health.

Every click, every visit, every interaction  
strengthens our commitment to a patient-  
first approach

# Digital Care, Real Impact

## How Dr. Jivraj Mehta Hospital Reached 4 Crore Lives With Compassion and Clarity

In the past year, Dr. Jivraj Mehta Hospital has made remarkable progress in its digital outreach, successfully transforming its online presence into a powerful tool for awareness, engagement, and patient connection. The results from this period are a testament to consistent, creative, and data-driven digital efforts.

**On Instagram**, the hospital recorded a phenomenal **165.7% increase in reach**, **100% growth in interactions**, and an extraordinary **563.4% rise in followers**—a clear indication that the content strategy resonated deeply with audiences. Page visits also surged to **119.9K**, and link clicks more than doubled, reflecting improved interest in hospital services.

**Facebook** performance was equally strong, with a **54.4% increase in reach**, a **22% jump in interactions**, and a significant increase

in follows and link clicks, pointing to better community connection and brand recall.

On the performance marketing front, both **Meta and Google campaigns** drove exceptional volumes of audience engagement. From appointment leads to website traffic, each campaign delivered tangible results. The overall click-through rates and conversion volumes reflect how the right messaging and audience targeting can drive real-world action.

The influencer collaboration with **RJ Devki** also stood out, generating wide visibility and emotional resonance, proving the impact of relatable storytelling in health communication.

The digital strategy focused on a blend of brand trust, emotional storytelling, and medical credibility. Doctor reels, nurse stories, and highlights of advanced treatments helped build both relatability and authority. WhatsApp appointment campaigns and Google search ads made access easier and faster for patients, contributing to improved outreach and walk-ins.

## Key Statistics Summary

Platform / Campaign Type	Metric	Value
Instagram	Reach (YoY growth)	+165.7%
	Interactions (YoY growth)	+100%
	Followers (YoY growth)	+563.4%
	Page Visits	119.9K
	Link Clicks	+119.9%

Platform / Campaign Type	Metric	Value
Facebook	Reach (YoY growth)	+54.4%
	Interactions (YoY growth)	+22%
	Follows	+4.4K%
	Link Clicks	6.8K
Meta Campaigns	Total Clicks	1,47,504
	Impressions	243 lacs
	Conversations Started (WhatsApp)	319
	Follows / Likes via Engagement	29,970
	Link Clicks from Traffic Campaign	36,528
Google Campaigns	Total Clicks	7,67,470
	Impressions	886 lacs
	Leads Generated	6,83,760
	Average CTR (All Campaigns)	8.40%

This year has established Jivraj Mehta Hospital as a leader in digital-first healthcare communication—one that is accessible, trustworthy, and human. With an integrated approach combining education, inspiration, and action, the hospital has built a digital presence that genuinely supports the health and well-being of the community it serves.

In summary, we got around **4 Cr reach and 10 Cr impressions** across Google, Meta, and Post Boosting, generating over **9 lakh clicks** and **7 lakh leads**, with cost-efficient performance across platforms. Meta excelled in driving engagement at low costs, while Google brought

in high-quality leads with an average **CPL of ₹0.58**. The strategy balanced visibility and conversions effectively, making smart use of the budget. With proven formats and clear outcomes, there's strong potential to scale these results further.

# When Our Patients Speak, We Listen. And We Act.

## Patient Feedback Summary & Testimonials 2024-25

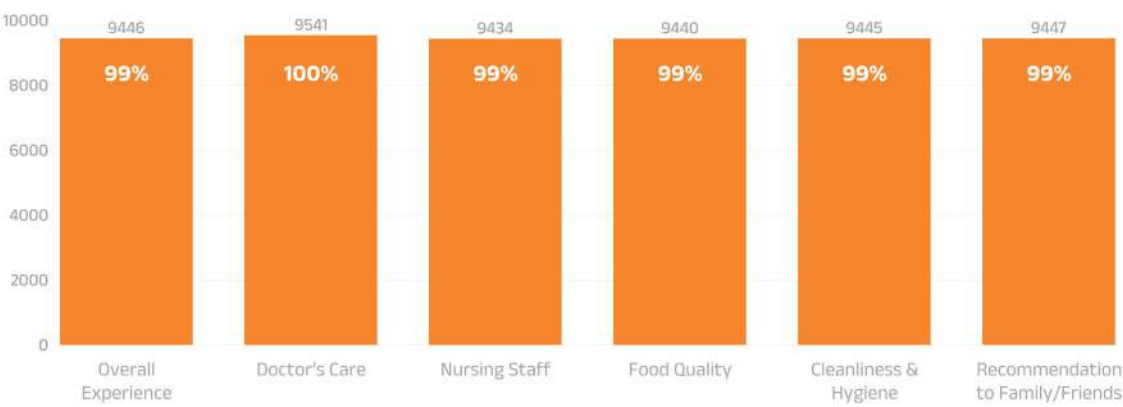

At Dr. Jivraj Mehta Hospital, feedback is not a report card. It is a mirror. It shows us where we serve well and where we must strive harder. Every response received is treated as a reflection of trust, responsibility, and learning.

## The Numbers that Tell a Story

In the year 2024-25, Dr. Jivraj Mehta Hospital catered to:

- **Total Patients Treated:** 11,776
- **Feedback Received:** 9,541
- **Total Google Reviews:** 3,103
- **Average Google Rating:** 4.7 Stars

# What Our Patients Speak (Unedited Testimonials)

## **Mrs. Dhadhal:**

"Thanks to Dr. Ajay Parmar & Dr. Neel Patel for treating my husband's prostate and later helping me during an emergency. The doctors and nursing staff are extremely polite, making us feel at home. Thank you, Dr Jivraj Mehta Hospital team."

## **Mrs. Bhalala:**

"Health check-up department doctors, nurses guided us well, fulfilled all our needs with care. Thank you for your precious time."

## **Mr. Dharwa:**

"Very good and clean hospital. Helpful doctors and staff. Budget-friendly health check-ups. Thank you health check-up department."

## **Mr. Desai:**

"A heartfelt thanks to the Medi-claim department for prompt, courteous support during my wife's admission. Excellent service throughout her stay."

## **Mr. Chapiya:**

"ICU treatment for our relative was handled by Dr. Gopal Rawal and Dr. Hemant Shukla. Extremely grateful for the entire hospital staff's support and care."

## **Mr. Soni:**

"Significant improvements at Dr. Jivraj Mehta Hospital. Facilities and staff match premium hospitals now. Very satisfied with the care."

## **Mr. Vasvada:**

"Dr. Parth Shah saved my father's life twice this year. Excellent infrastructure and doctor network. Highly grateful."

## **Mr. Patel:**

"Excellent care in the general ward. Sunitaben and the team provided helpful and disciplined care. Free food, clean clothes, timely check-ups were commendable."

## **Mr. Mohit:**

"Exceptional care during my visit. Dr. Ajay Parmar and the team ensured thorough explanations, empathy, and effective treatment."

## **Mr. Shah:**

"ICU staff maintained composure and professionalism under pressure. Outstanding dedication to patient care."

**Mr. Bharosa:**

"Professional and caring staff. Highly recommend Dr. Jivraj Mehta Hospital for health check-ups."

**Mr. Anklesaria:**

"Very family-like behaviour from staff. Dr. Santosh and team are approachable and caring. Recommended to all."

**Mr. Mathai:**

"Clean environment, friendly staff, special thanks to Sujataben, Nehaben, and Himmatbhai for making my health check-up experience smooth."

**Mr. Thakkar:**

"Smooth health check-up process. Cooperative staff and doctors ensured a hassle-free experience."

**Mr. Raval:**

"Exceptional cardiac care for my father. Thanks to Dr. Prakashvir Parikh and Cath ICCU Team for their expertise and compassion."

**Mr. Shah:**

"Ongoing consultation with Dr. Dipal Parekh has been excellent. The support staff is equally commendable."

**Mr. Pandya:**

"Cath ICCU staff provided excellent post-bypass care to my father. Their support gave my father a new life."

**Mr. Sathwara:**

"Dr. Jivraj Mehta Hospital defines excellence. Facilities are top-class and staff is extremely caring and competent."

**Mr. Jetwani:**

"Highly supportive doctors, nurses, and support staff. Modern treatment facilities at affordable prices. True value for money."

**Mr. Rathod:**

"Successful urology surgery for my uncle by Dr. Neel Patel. Excellent service from staff."

**Mr. Kanadia:**

"Consistently polite and helpful staff. Competitive pricing with excellent service."

**Mr. Makwana:**

"Efficient OPD coordination and helpful staff like Mr. Pratik Agarwal ensured smooth management."

**Mr. Chhipa:**

"General ward experience was very good. Staff was helpful and polite."

**Mr. Shah:**

"Husband's angiography handled with professionalism. Clean hospital, amazing nurse and doctor care, transparent charges."

**Mr. Shukla:**

"Excellent care for my mother. Clean rooms, bright ICU, cooperative staff. Dietary needs were handled meticulously."

**Mr. Barot:**

"Excellent health check-up service for my father. Infrastructure, cleanliness, and staff guidance were all commendable."

**Mr. Patel:**

"My 5-day hospitalization was handled with professionalism. Clean facilities, clear doctor communication, and caring staff made recovery comfortable."

**Mr. Prajapati:**

"Dr. Jivraj Mehta Hospital sets a benchmark in healthcare. Skilled doctors, advanced technology, and compassionate service define the experience here."

**Mr. Sharma:**

"Swift response from Dr. Tarun Dave and team during my visit. Highly appreciate their immediate action."

**Mr. Pancholi:**

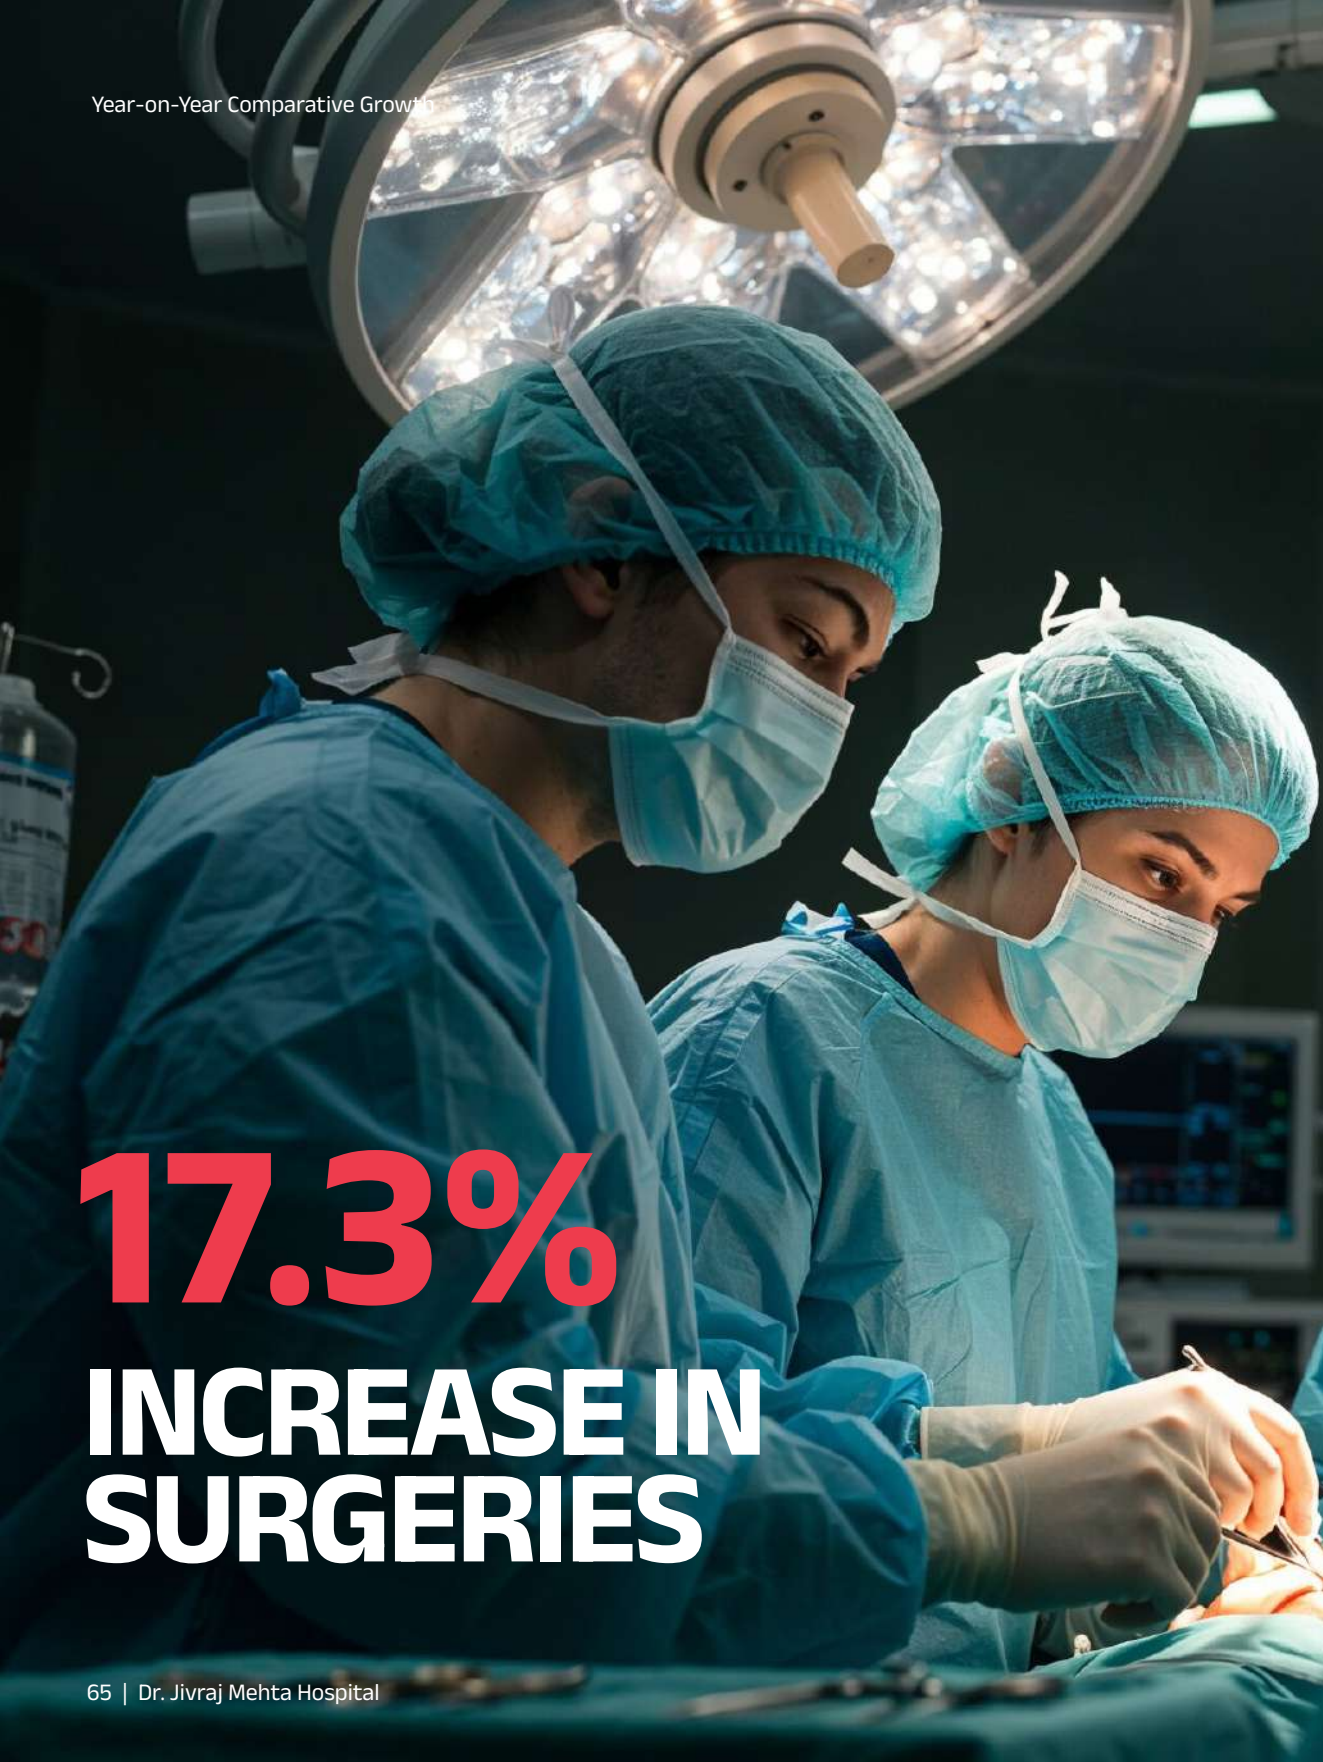

"Had a great experience at the health check up department. I selected the full body checkup plan. Wonderful staff, efficient and streamlined process."

**Our Perspective on Feedback**

These stories — every one of them — remind us why we exist. Not as a corporate hospital, but as a healthcare institution built on trust, empathy, and human connection. We do not celebrate ratings. We celebrate reassurance.

Every thank you. Every suggestion. Every handshake at discharge.

**"At Dr. Jivraj Mehta Hospital, feedback is not just a number. It is a relationship. One we are honoured to build, every day."**

# Five-Year Comparative Analysis of Medical Procedures & Services

## Numbers That Reflect Service, Not Scale

At Dr. Jivraj Mehta Hospital, numbers are not celebrated for their size. They are acknowledged for what they represent — lives touched, patients cared for, and trust earned through service. Over the past five years, the steady increase across critical services speaks of one thing: the community's growing faith in us.

Here's how that journey unfolded:

### Surgeries: From 1,500 to Over 3,100 — A Reflection of Trust

In FY 2020-21, we performed **1,536 surgeries**. This year, **3,176 patients underwent surgical procedures** at our hospital — more than doubling in five years.

This increase is not just a number. It reflects:

- The confidence patients now have in our surgical expertise.

- The assurance of post-operative care and recovery facilities.
- Word-of-mouth trust that has steadily grown within the community.

### Radiological Procedures: Meeting the Need for Accurate Diagnosis

From **20,045 radiological procedures** in FY 2020-21 to an impressive **42,741 procedures** in FY 2024-25, this segment has seen consistent growth.

This rise indicates:

- Enhanced imaging facilities and updated diagnostic equipment.
- Faster turnaround times for tests.
- Improved patient education on the importance of early and accurate diagnosis.

### Cath Lab Procedures: Maintaining Focused Cardiac Care

Cath Lab procedures saw a rise from **924 in FY 2020-21 to 1,566 in FY 2022-23**. The last two years stabilized at **1,270 in FY 2024-25**.

Rather than declining, this reflects:

- A focus on **quality over quantity**, with better preventive care reducing emergency cath lab interventions.
- Increased outpatient cardiac management.
- Strategic collaborations ensuring only necessary interventions are conducted in-house.

### Health Check-ups: Proactive Care Taking Centre Stage

From **just 1,122 check-ups in FY 2020-21**, we reached **4,945 health check-ups in FY 2024-25** — a fourfold increase.

This surge demonstrates:

- Growing public awareness about preventive health.
- Successful outreach campaigns encouraging proactive check-ups.
- Affordable, structured health check-up packages making wellness accessible.

## Dialysis: Expanding Lifeline Services

Dialysis cases grew from **6,104 to 8,385** over five years, with a notable rise in FY 2023-24 and 2024-25.

This growth signifies:

- Enhanced capacity to serve more patients.
- Reliable, consistent service quality drawing patients back.
- Trust from long-term dialysis patients and their families.

## OPD Patients: Becoming the First Choice for Everyday Care

OPD consultations rose from **26,950 in FY 2020-21** to a remarkable **81,834 in FY 2024-25** — **over three times the patient footfall in five years.**

This reflects:

- Increased preference for Dr. Jivraj Mehta Hospital as a primary care provider.
- Diversification of specialties attracting a broader patient base.
- Streamlined OPD processes and improved patient experience.

---

## A Journey of Service, Not Expansion

Each of these figures is a silent testimony to the hospital's unwavering commitment:

- To **be accessible.**
- To **offer quality care without corporate frills.**

- To **grow because of trust, not marketing hype.**

Behind every digit is a story — of a patient who chose Dr. Jivraj Mehta Hospital not for its name, but for the reassurance it offers. And that is the only growth we celebrate.

“

## **Year of Measurable Impact**

For us, these five years are not about rising numbers. They are about rising responsibility and serving the society.

# Infection Control & Quality Initiatives 2024-25

## Because Patient Safety Is Non-Negotiable

At Dr. Jivraj Mehta Hospital, infection control is not a metric — it is a commitment. Every sterile field maintained, every hand washed, every protocol followed is a step towards safeguarding the people who trust us with their lives.

This year, our infection control data tells a story of vigilance, discipline, and continuous improvement.

## Benchmarking Ourselves Against the Best (NHSN - UK Standards)

To ensure global standards, we measure our infection rates against NHSN (UK) benchmarks — some of the most stringent in healthcare.

Let's look at where we stand:

### 1. Catheter-Associated Urinary Tract Infections (CAUTI)

Our CAUTI rate remained well below the international benchmark, demonstrating:

- Strong adherence to catheter care bundles.
- Effective nurse training and protocol audits.
- Timely catheter removal practices.

### 2. Central Line-Associated Blood Stream Infection (CLABSI)

CLABSI rates remained exceptionally low, indicating:

- Meticulous aseptic techniques.
- Regular surveillance by the infection control team and continuous staff sensitization programs.

### 3. Ventilator-Associated Pneumonia (VAP)

Achieving near-zero VAP rates reflects:

- Consistent ventilator care protocols.
- Early weaning strategies.
- Enhanced ICU staff training on airway management.

### 4. Surgical Site Infection

Our SSI rates remained significantly below global standards, a result of:

- Pre-operative patient optimization.
- Strict sterilization processes.
- Rigorous post-operative wound care monitoring.

### 5. Hospital-Acquired Pressure Ulcer (HAPU)

This ultra-low rate indicates:

- Proactive nursing surveillance.
- Regular patient repositioning protocols.
- Use of advanced pressure-relieving devices.

### 6. Needle Stick Injuries (NSI)

Maintaining a low NSI rate has been possible through:

- Consistent sharps handling training.
- Availability of safety-engineered devices.
- Prompt reporting and corrective actions.

## 7. Hand Hygiene Compliance: A Reality Check

While all other infection indicators remain below benchmark, hand hygiene compliance continues to be an area needing focused attention.

We recognise:

- The gap in achieving global best practices.
- The need for stricter audits, real-time monitoring, and behavioral reinforcement.
- Plans are already in motion for targeted training and increased accountability in 2025-26.

## Key Takeaway

While our infection rates in critical areas are significantly lower than international benchmarks, hand hygiene remains an ongoing challenge. The journey ahead will involve bridging this gap — because at the heart of every policy is a patient who deserves our very best.

**“In the pursuit of excellence, our commitment to infection control and quality initiatives is unwavering.**

**At Dr. Jivraj Mehta Hospital, we continually innovate and strengthen our protocols to ensure the highest standards of safety, care, and well-being for every patient, every day.”**

“

Infection control is not a single department's job. It is a hospital-wide culture and responsibility. And we are committed to strengthening it further.

”

# Annual Performance Review on KPIs 2024-25

## When Every Minute, Every Decimal, Reflects Patient Care

Key Performance Indicators (KPIs) are more than numbers for us — they are daily reminders of the standards we set for ourselves. Every improvement here means safer, faster, more reliable care for every patient who trusts us.

This year, our KPI performance reflects not perfection, but progress — with clarity on where we excel and where we must continue to improve.

## Clinical Efficiency & Responsiveness

### 1. Time Taken for Initial Assessment of Indoor Patients (Wards Only)

Patients admitted to wards were assessed in nearly half the benchmark time. This reflects the proactive approach of our medical and nursing teams, ensuring early diagnosis and intervention without delay.

## Diagnostic Accuracy & Reporting Integrity

### 2. Laboratory Reporting Errors per 1000 Investigations

With error rates far below the accepted benchmark, this highlights meticulous verification processes and robust lab quality control.

### 3. Radiology Reporting Errors per 1000 Investigations

A testament to our radiology team's precision, with continuous peer reviews ensuring diagnostic clarity and accuracy.

## Medication Safety & Monitoring

### 4. Medication Errors

While within benchmark, medication safety remains a vigilant area, with protocols in place for double-checking high-risk drugs and continuous staff sensitization.

### 5. Medication Charts with Error-Prone Abbreviations

Persistent auditing and training have kept this indicator well below threshold, yet it's a continuous learning curve for prescribers and nurses.

### 6. In-Patients Developing Adverse Drug Reactions (ADR)

Exceptionally low incidence reflects robust pharmacovigilance, timely monitoring, and early intervention systems.

## Clinical Safety & Outcome Indicators

### 7. Blood Transfusion Reactions

Safeguarded by strict protocols, cross-checking, and staff competency, yet monitored vigilantly to aim for further reduction.

8. Mortality Rate

Slightly above benchmark, prompting focused clinical audits, multi-disciplinary reviews, and root cause analysis for every mortality case.

9. Return to Emergency Department within 72 Hours for Similar Complaints

A significant achievement, reflecting comprehensive discharge counseling, effective primary treatment, and reduced re-admissions.

Operational Process Excellence

10. Turn-Around Time (TAT) for Blood & Components

Efficient coordination between blood bank, laboratories, and clinical teams ensured timely availability of critical components, enhancing patient safety.

11. Records with Improper Consent

A visible improvement through continuous staff training, audits, and checklist-based documentation protocols.

## 12. Clinical Handover (Medical Officer)

Exemplary adherence ensuring seamless communication during shift transitions, directly impacting patient continuity of care.

## Documentation & Prescription Standards

### 13. Compliance to Digital Prescription Format (Capital, Legible, Dose, Route, Frequency)

A clear improvement area identified, with upcoming action plans involving rigorous audits, prescriber training, and accountability measures to bridge this gap.

## Our Reflections:

- **Where We Excelled:** Rapid patient assessments, diagnostic accuracy, emergency return prevention, and clinical handovers set benchmarks for internal best practices.
- **Where We Must Improve:** Prescription format compliance and mortality ratio analysis remain key focus areas for 2025-26.
- **The Way Forward:** Every KPI is a reflection of care delivered. We aim to keep refining these metrics — not to look good on paper, but to ensure every patient experience is safe, dignified, and timely.

**“KPIs are not only achievements. They are measurements of quality of care delivered by us.”**

# Compassionate Care Initiatives 2024-25

## 600 Blood Donors: The Silent Pillars of Our Mission

### Because Healthcare Is Meant to Heal, Not Burden

At Dr. Jivraj Mehta Hospital, compassion is not a program — it is the foundation of why we exist. For us, the real measure of impact is not in revenues generated, but in burdens relieved.

This year, our compassionate care initiatives quietly continued to uphold this very belief.

## 4,010 Free Beds

Over **4,010 patients** received **completely free bed admissions** at our hospital.

This is not a number. This is:

- 4,010 families who could focus on healing instead of worrying about finances.
- 4,010 times we ensured that no patient was turned away for lack of means.

It reflects our unwavering commitment that **healthcare is a right, not a privilege.**

## 7,015 Free Dialysis Sessions

Dialysis is not a one-time treatment. It is a lifeline.

Through **7,015 free dialysis sessions**, we stood by patients battling chronic kidney conditions, ensuring:

- Their survival was not dictated by financial status.
- Long-term care remained accessible and consistent.
- Every session was delivered with the same dignity as any paid service.

This is not charity. This is responsibility.

## 10 Community Health Camps

### Taking Care Beyond Our Walls

Health is not limited to hospital beds. This year, we conducted **10 community health camps**, bringing care directly to those who may never reach us.

Each camp meant:

- Early detection of diseases in underserved populations.
- Spreading awareness about preventive health.

- Bridging the gap between urban healthcare infrastructure and rural needs.

Behind every free bed, every dialysis session, and every camp — stand our **600 blood donors**.

These are individuals and organizations who believe in the same philosophy:

- That healthcare should never discriminate.
- That giving is the most human act of all.

Every contribution they made turned into tangible care for someone in need.

## The Bigger Picture: Compassion as a Daily Practice

These numbers are not annual targets for us. They are daily affirmations of our mission:

**To serve with empathy. To stand by the vulnerable. To never let affordability come in the way of life-saving care.**

This is what compassionate care means at Dr. Jivraj Mehta Hospital.

“

Because when we say  
**‘Chinta Na Karta’**, we mean it,  
not just for those who can pay,  
but for everyone who needs care.

”

# Milestones & Achievements 2024-25

## Small Steps That Make a Large Difference

At Dr. Jivraj Mehta Hospital, we believe milestones are not trophies. They are checkpoints of responsibility. Every milestone we reach simply raises the bar for how much better we need to serve.

The year 2024-25 brought us many such defining moments.

## Departmental Accreditations: A Commitment Renewed

# National Conference on Respiratory Medicine at Jivraj

A Breakthrough for Lung Health: Every Breath Matters.

# Success Stories: Lives Touched, Lives Saved

## Medical Achievements

- **Dr. Parth Shah** successfully managed an 87-year-old H1N1 pneumonia patient through respiratory failure and AKI to recovery — proving that age is not a barrier to compassionate, intensive care.
- **Dr. Vikas Maheshwari** performed a complex radical distal gastrectomy for gastric outlet obstruction, with a smooth post-operative recovery.
- **Dr. Sandharbh Patel's** non-invasive management of a massive STEMI case using Optical Coherence Tomography (OCT) marked a breakthrough in cardiac care, minimizing the need for stents.
- **Dr. Vaishal Sheth** led a landmark Whole Lung Lavage on a rare PAP patient, removing 11 litres of proteinaceous material — a life-saving intervention, made possible through Dr. Jivraj Mehta Smarak Health Foundation Trust's support to reduce treatment costs.
- **Dr. Nen Shah** achieved early diagnosis and treatment of Takayasu's arteritis — a rare vascular condition — highlighting the team's focus on rare diseases and clinical precision.

Each of these is a story of service, clinical acumen, and our commitment to advanced, yet accessible, care and there are many more success stories.

## Operational Excellence

- **Highest Daily Occupancy:** Reached a record of 170 patients in a single day.
- **Formation of Various Clinical Committees:** Established to enhance clinical governance and performance.
- **Weekly Review Meetings:** Regularly held to evaluate departmental and organizational performance.
- **Paperless Clinical and Medical Record Audit:** Implemented using Google Forms for efficiency.
- **Social Media Reviews:** Integrated Google, Instagram, and Facebook reviews at each touchpoint.
- **Pneumatic Chute System:** Introduced for efficient sample and medication dispatch.
- **CSSD Centralization:** Centralized Sterile Supply Department for better resource management.
- **Introduction of Gene Expert Machine (TB):** Enhanced TB diagnostic capabilities.
- **1000+ Multidisciplinary Staff Trainings:** Conducted to improve skills and knowledge.
- **Implementation of Planned Discharge Process:** Streamlined patient discharge for improved efficiency.
- **Full-Time Consultants Model:** Transitioned to a full-time consultants model for better patient care.
- **PACS:** PACS (Picture Archiving and Communication System) is a digital solution

that streamlines the storage, retrieval, and sharing of medical images such as X-rays, CT scans, and MRIs. Widely used in radiology, it allows healthcare professionals to access and manage imaging data efficiently, enhancing both diagnostic accuracy and collaboration across departments.

## Digital Innovations

- **ABDM Portal Registration:** Facilitated digital health records management.
- **Med-learn App:** Launched for digital training of staff.
- **Adrenaline App:** Introduced for digital human resource management.
- **OPRA Registration:** OPD registration and digital prescription by the consultant
- **Whatsapp SMS:** Launched WhatsApp-based updates for existing patients, enabling appointment reminders, reports, and follow-ups through a familiar and accessible platform.
- **CMIS Integration:** Introduced for clinical data digitalization for all patient care

## Employee Engagement

- **Days Celebration:** Organized various events to celebrate special days.
- **Employee of the Month Celebration:** Recognized outstanding employees monthly.
- **Efficient Parking Space Management:** Improved parking facilities and management.
- **Significant Overtime Reduction:** Achieved through better operational efficiency.

The year 2024-25 has been marked by significant achievements at Dr. Jivraj Mehta Hospital, ranging from departmental

accreditations to medical milestones and operational improvements. Our continuous efforts to integrate digital solutions and enhance patient care have led to remarkable outcomes. The commitment to excellence in healthcare is reflected in every initiative undertaken, ensuring we uphold our mission to provide high-quality, compassionate care to our community.

## A Milestone is Not a Full Stop

For Dr. Jivraj Mehta Hospital, every achievement is a beginning.

A reminder to keep refining, keep caring, keep serving.

**“Because every patient’s trust is a milestone we must earn - every single day.”**

# Process Improvement & HR Initiatives

## Refining Processes. Empowering People. Delivering Better Care.

At Dr. Jivraj Mehta Hospital, process improvement isn't just about systems — it's about people. It's about creating smoother experiences for patients, clearer protocols for teams, and smarter decisions for the future. In 2024–25, our focus remained on integrating thoughtful, measurable enhancements that elevate care delivery from the inside out.

## Key Process Improvements This Year

### 1. Monthly Medical MIS:

Our Medical Management Information System (MIS) continued to evolve into a reliable monthly framework, helping leadership monitor trends, analyze department-level metrics, and enable quicker, evidence-backed decisions.

### 2. Sharper Clinical Outcomes – Reduced Mortality:

A renewed focus on early intervention protocols, better ICU care coordination, and inter-departmental case reviews contributed to a further reduction in mortality rates — reaffirming our pledge to improve survival and recovery for every patient.

### 3. Digital Feedback Loop, Now Deeper:

The Digital Patient Feedback System was refined to offer greater insights. Real-time inputs helped us implement actionable changes faster, closing the gap between feedback and follow-through.

### 4. Structured Induction for New Joiners:

We continued our commitment to structured onboarding with regular induction training across departments — giving every new team member a confident start aligned with our values, protocols, and patient-first philosophy.

### 5. Weekly Reviews with Actionable Outcomes:

Our weekly departmental review meetings became more than routine. They became solution spaces — where data, dialogue, and accountability worked together to identify challenges, implement quick fixes, and drive continuous improvement.

# Our People, Our Strength

## Investing in the Heart of Healthcare – Our Team

At Dr. Jivraj Mehta Hospital, we believe world-class care begins with empowered caregivers. The year 2024–25 was marked by consistent progress in expanding our team, enhancing learning systems, and deepening employee satisfaction — all anchored in the belief that those who care for others deserve the highest care themselves.

## Growing Stronger Together: Manpower Strength

This year, we proudly crossed the mark of 1000+ team members, a milestone that reflects not just scale, but diversity across roles that keep our institution running with

With a strong mix of full-time and visiting doctors, backed by robust nursing, paramedical, administrative, and support teams — we continue to build a work environment centered on teamwork, trust, and shared purpose.

### Learning That Never Stops: Training Growth

The year also saw significant momentum in Learning & Development.

- 51 average trainings/month in 2024-25 (compared to 43 in 2023-24 and 37 in 2022-23)
- This represents a 38% rise in monthly trainings over two years, enabling continuous skill advancement across departments.

This surge reaffirms our commitment to a culture of learning that doesn't just meet compliance — it nurtures confidence, competence, and curiosity.

### A Digital Leap: Medlern Integration

The implementation of the Medlern platform brought a digital transformation in training.

- In 2022-23, only 28% of trainings were online.
- In 2024-25, over 60% of trainings moved to digital, unlocking flexibility, scalability, and real-time learning.

This transition empowered staff to learn at their own pace, access centralized content, and stay aligned with clinical protocols — no matter where they were.

## Rising Together: Employee Satisfaction

Perhaps the most heartening metric of the year was this —

- Employee satisfaction rose to 88% in 2024-25, from 82% the year before, and 78% the year before that.

In a field where burnout is common, this consistent improvement is a reflection of deeper belonging, better systems, and a culture that celebrates care at every level — not just for patients, but for each other.

## Diversity That Heals, Inclusion That Empowers

Because care begins with who we are — as much as with what we do.

At Jivraj Mehta Hospital, inclusion isn't a checkbox — it's the culture we practice every day. Our workforce is a reflection of the community we serve: diverse in belief, balanced in gender, and united in purpose.

With a team of 553 individuals, we take pride in the fact that our staff represents a wide cross-section of society.

We have a fair and respectful representation from all religions, ensuring that our patients are cared for by people who understand their values, speak their language, and honour their customs.

### Our gender balance is equally strong, with:

- **316 women** (57%)
- **237 men** (43%)

This representation is not just about numbers. It shapes our patient experience — fostering empathy, cultural sensitivity, and dignity in every interaction.

At Jivraj, we believe that diversity is our strength — and inclusion is our responsibility. We are committed to nurturing an environment where every team member feels seen, respected, and empowered to grow, no matter who they are or where they come from.

Because a hospital that reflects its people is a hospital that heals more deeply.

# Infrastructure & Technology Upgrades 2024-25

## Strengthening Our Promise with Purposeful Investments

In 2024-25, Dr. Jivraj Mehta Hospital invested in **critical medical equipment and technology upgrades** across departments.

Every purchase was aligned with a singular vision — **enhancing patient outcomes, ensuring safety, improving diagnostic accuracy, and expanding life-saving capacities.**

From upgrading Cathlabs and Operation Theatres to enhancing ICU, Dialysis, Laboratory, and Emergency care, these investments reflect the trust placed in us by our patients and supporters.

For our donors, this section is a transparent account of **how every contribution was translated into tangible, life-impacting assets.**

S.No.	Department	Equipment	Qty	Price (₹)	Potential Impact on Patient	Donor

# What Comes Next is a Deeper Promise

**Because for us, the future isn't about how far we grow — it's about how deeply we care.**

At Dr. Jivraj Mehta Hospital, we don't define progress by expansion plans or square footage.

We define it by how many lives we can touch, how much fear we can ease, and how consistently we can uphold the dignity of every patient who walks through our doors.

As we step into tomorrow, our focus sharpens — not on building more, but on serving better.

We will continue reaching the underserved — bringing health check-up camps, preventive screenings, and affordable treatment to those who might otherwise be left behind. Because healthcare that doesn't reach everyone is incomplete.

We will invest in technologies that make healing faster, safer, and more precise — not for prestige, but for the patient waiting in need. Every machine we add, every system we refine, will be in service of a single goal: better outcomes with deeper empathy.

Our innovations will stay rooted in people — making every journey through our hospital simpler, more transparent, and less intimidating. When patients feel informed, respected, and supported, healing begins long before the treatment.

We'll continue to nurture the people who make healing possible — our doctors, nurses, technicians, and support teams. Through training, recognition, and compassion, we'll

ensure they are cared for, so they can care with strength and sincerity.

Our environmental responsibility will only deepen — with solar energy, water conservation, and sustainable practices embedded into our operations. Because caring for people also means caring for the planet they live in.

And above all, we will honour the trust placed in us by our donors. Every rupee given will be transparently used for tangible impact — turning generosity into beds, machines, medicines, and moments of healing.

**The Road Ahead Isn't New. It's Reinforced.**

**By purpose.**

**By compassion.**

By an unshakable belief that care must come first.

**This is our promise**

Not to build the biggest hospital. But to remain the one patients can believe in.

To serve, to heal, and to walk beside every life that seeks our help.

**Always with intent.**

**Always with heart.**

**Always with humility.**

# Independent Auditor's Report

## Modi Jain & Co.

Chartered Accountants  
S-12/A, 2nd Floor, Vikram Chambers,  
Nr. Sales India, Income Tax, Ashram Road,  
Ahmedabad-380 009

## To

The Trustees of  
DR JIVRAJ MEHTA SMARAK HEALTH FOUNDATION  
(Trust Registration No. F/951/29-11-1983/  
AHMEDABAD)

## Opinion

We have audited the financial statements of DR. JIVRAJ MEHTA SMARAK HEALTH FOUNDATION, Bakeri Medical Research Centre (the "Trust") which comprise the Balance Sheet as at 31st March, 2025 and the Income and Expenditure Account for the year then ended in which are included their Units (Health Care Unit & Research Unit) which are separately audited by us, and notes to the financial statements, including a summary of Significant Accounting Policies and other explanatory information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Trust as at 31st March, 2025 and excess of income over expenditure for the year then ended and are prepared, in all material respects, in accordance with The Gujarat Public Trusts Act, 1950 (Bom. XXIX of 1950).

## Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ("SAs") issued by ICAI. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Trust in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements. An audit is carried out considering the provisions of The Gujarat Public Trusts Act, 1950 (Bom. XXIX of 1950) and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management of the Trust is responsible for the preparation and fair presentation of the financial statements in accordance with The Gujarat Public Trusts Act, 1950 (Bom. XXIX of 1950) that give a true and fair view of the financial position and financial performance in accordance with the accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of The Gujarat Public Trusts Act, 1950 (Bom. XXIX of 1950) for safeguarding of the assets of the Trust and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management of the Trust is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Trust's financial reporting process.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of

management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on our audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Trust to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit

and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## Report on Other Legal and Regulatory Requirements

As required by The Gujarat Public Trusts Act, 1950 (Bom. XXIX of 1950) and on the basis of such checks as we considered appropriate and necessary and according to the information and explanations given to us, we report that:

1. The accounts are maintained regularly and in accordance with the provisions of The Gujarat Public Trusts Act, 1950 (Bom. XXIX of 1950) and the Bombay Public Trusts (Gujarat) Rules, 1961. The books of account and records are maintained as per CBDT Notification dated 10th August, 2022, called the Income Tax (24th Amendment) Rule, 2022 applicable from F.Y. 2022-23 and subsequent amendments thereto.
2. The Receipts and disbursements are properly and correctly shown in the Accounts.
3. The Cash balances and vouchers are in the custody of the Cashier/Accountant on the date of audit and are in agreement with the Accounts.
4. Books, Deeds, Accounts, vouchers and other documents and records required by us were produced before us.
5. The inventory, certified by the Trustees, of the movable properties of the Trust has been maintained.
6. The Accountant-in-charge appeared before us and furnished the necessary information required by us.
7. The property or Funds of the Trust were not applied for any object or purpose other than the objects or purposes of the Trust.
8. The amounts of Advances outstanding

for more than one year are Rs. Nil. and the amounts written off are Rs. NIL. (P.Y. Rs. 2,38,118/-).

9. Tenders were not invited but the quotations were obtained in most of the cases for comparative prices in respect of repairs and construction, where the expenditure exceeded Rs. 5,000/-.
10. The Trust has made various investments as shown in Schedule-H to the Financial Statements as at 31st March 2025 which are in accordance with Section 35 of The Gujarat Public Trust Act, 1950 (Bom. XXIX of 1950). They are also in accordance with the provisions of Section 11(5) of the Income-tax, 1961.
11. Separate books of account, records, vouchers and other documents are maintained by Healthcare Unit and Research Unit which are separately audited by us. These Units' separate Financial Statements are also attached along with Trust's Financial Statements.
12. The books of account are maintained on accrual system of accounting.
